

It is our understanding that the FCC is considering prioritizing LPFM over FM translator services. Our favorite radio station, K-LOVE, uses the translators and is an invaluable resource to our family and local community. Loss of this station, and the possible alternatives that might replace it, would be very grievous to me and my family, as well as many others in our area. K-LOVE is one of a VERY few radio stations that I trust enough to allow my children to listen unsupervised. K-LOVE also provides "Community Spotlights" that both inform us of activities in the area, and also provide an opportunity to broadcast our free events without charge. The public interest is better served by K-LOVE, than some other radio stations that emit vulgar, lewd, and disrespectful language and "music". Please do not take any actions that would cause K-LOVE to be forced off the air.

Respectfully  
W. Scott Ogden and Family
